

THE BUYER JUNIOR MINERS HAVE BEEN WAITING FOR

FROM SAND TO PROFIT.

You dig it, we buy it.

Your half-processed zircon sand? We'll take it, every tonne you've got. Long-term offtakes, fixed pricing, and the gear to keep you going if you need it.

The world's squeezing junior miners. We're here to hand back control.

50 to 58% HMC

No need to chase 66%. We handle the extra processing ourselves.

40,000t

aggregate regional network capacity

100%

of your output, taken off the gate

10 yrs

offtake contracts, locked in

01OPTIONAL

GEAR IF YOU NEED IT

Local processing and lease-to-own options keep your operation running. R&D tax incentives included.

02OPTIONAL

CASH THAT TURNS UP

Fixed pricing for your wet concentrate, no bank hurdles. We help get your lease qualified for the A\$15B National Reconstruction Fund.

03

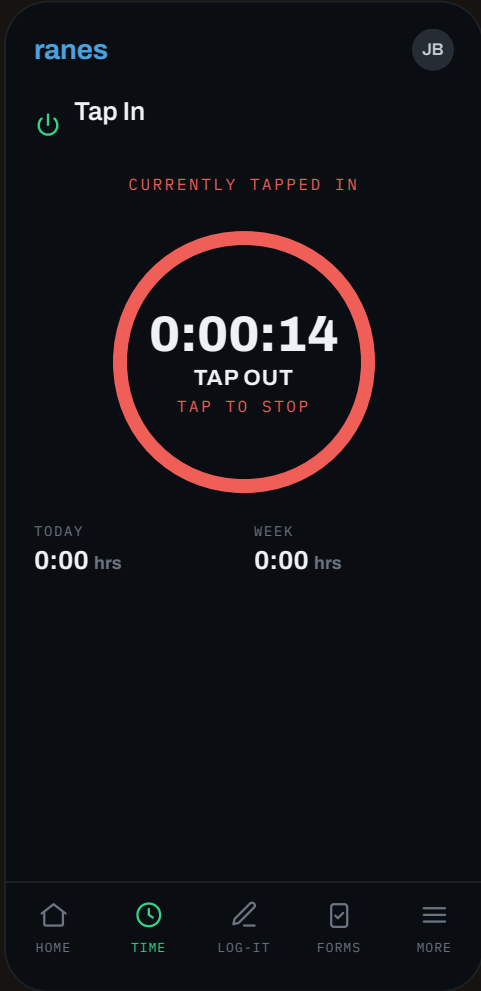

LOCKED IN FOR YEARS

10-year offtake contracts guarantee your sales. Top dollar, paid local.

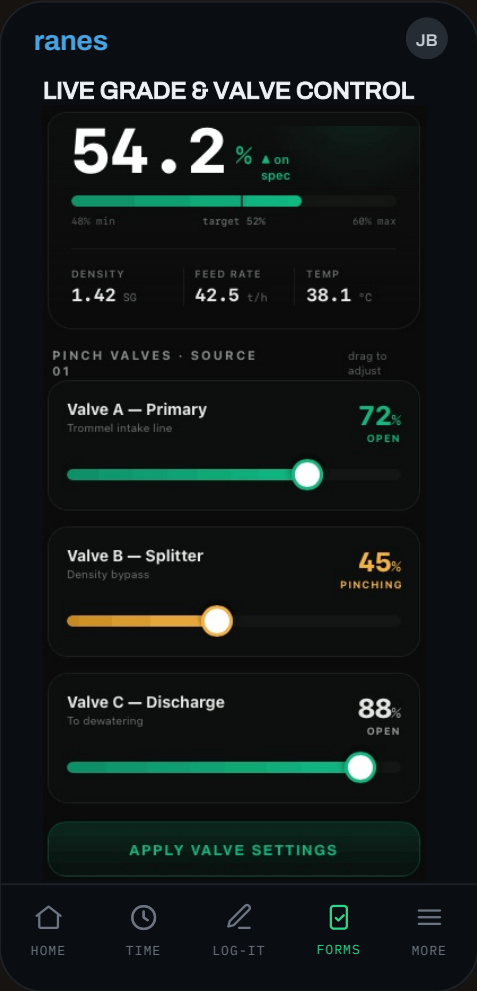

BUILT ON SERIOUS TECH

The plant on the ground. The software in your pocket.

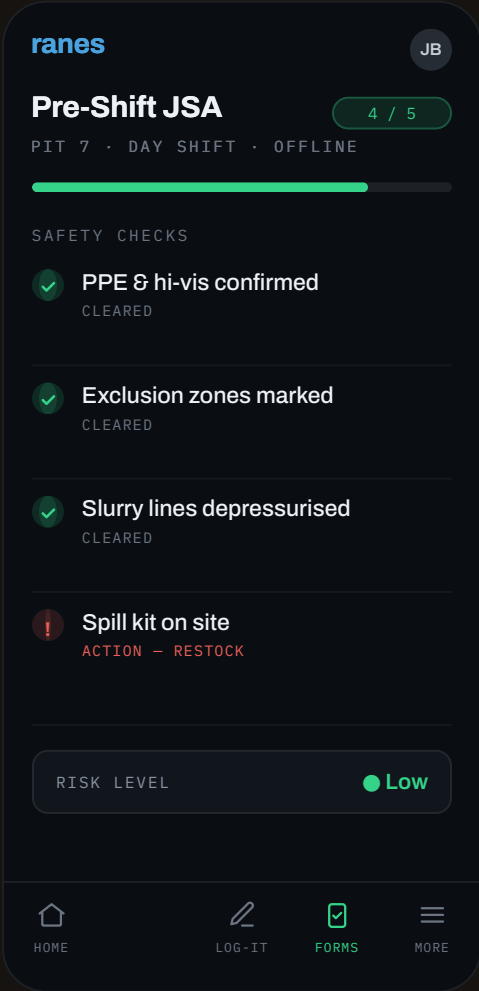

Your crew checks the sand is on-spec straight from the pit or the office, on their phone. Time on site, live grades, and safety, all in one app.

TAP IN · TAP OUT

LIVE ZIRCON GRADES

PRE-SHIFT JSA · SAFETY

OUR PLANTS

Closed-loop cyclonic clarifiers recycle 90% of process water, zero discharge. On-skid mobile plants deploy straight onto your lease. We pull only the zircon-rich concentrate, so your other rare earths stay on site and stay yours. Build only what you need, when you need it.

OUR SOFTWARE — RANES ATLAS AI

Real-time XRF grades, processing density and pre-shift JSAs, calculated offline right on the phone in the pit. Your crew sees the sand is on-spec from the pit or the office. No signal needed.
